/ MAP of Development /

MoD

- **23 record for workers to track the stages of construction**
 - [1/23] Value statements as a mission
 - [2/23] Renew our working databases
 - [3/23] Targeting
 - [4/23] Provisioning the collaboration
 - [5/23] Integrate our proposals to economical processes
 - [6/23] Refresh applied processes
 - [7/23] Conceptional aspects
 - [8/23] Broadcasting sectors
 - [9/23] Legal/formal challenges
 - [10/23] General documentation
 - [11/23] Service management
 - [12/23] Outsourcing processes *-partners, contributors, constitutors-*
 - [13/23] Secondary activities
 - [14/23] Let access the contributions to public knowledge
 - [15/23] Identify key focus areas for innovation efforts
 - [16/23] Formulate the focus areas into statements and definitions
 - [17/23] Pick the right challenges (FACULTY and Specialisation)
 - [18/23] Measure the engagement level
 - [19/23] Access productivity development methods
 - [19a/23] Reward participation on development/production workflows
 - [20/23] Promote prior challenges –as:
 - [20a/23] Financial aspects
 - [20b/23] Business model –*to design, proceed*
 - [20c/23] Action and contribution –*to organize*
 - [20d/23] Legal support and backend management –*to serve*
 - [20e/23] Governance structure –*to build and maintain*
 - [20f/23] Development strategies –*to make*
 - [20g/23] Stages of economical values-development –*to evolve*
 - [21/23] Cultural change
 - [22/23] Adopt / adapt methods then note and share results
 - [23/23] Inspire creativity by various challenges

×

- Key Activities

- Permissionless economy

- Key sources

- Open Value Network (OVN)
 - Discovery Network (DN)
 - Distributed Cooperatives (DisCoO)
 - NOICE project

- 'Development of Legal Framework' –DoLF (implemented via AM4ideaHu)

- Legal primer –implemented via AM4ideaHu

- Articles of incorporation

- subject to Intellectual Properties (ip2)

- Bylaws –items denoted, subject to:

- 'Pointers Resources Schedules' (PRS)
 - 'Portfolio Practice Content' (PPC)
 - 'Portfolio Practice Pointers' (PPP)
 - 'Unified Libraries' (UL)
 - 'Accounted Items' (AI)
 - Configurable documents
 - Cooperative Operating Agreement (COA)
 - MASTER Document (of AM4ideaHu)
 - 'Chief Content Flow' (C-C-F)
 - Policy template –*to verify*
 - Policy sample –*to adopt / follow*
 - d'DIR on the edge of co-working

- 'DoLF docs' –indexed:

- | | |
|-------|------|
| • GR | • GK |
| • GV | • GS |
| • GDI | • GF |

- Playbooks

- Documents created workflow
 - Input relations
 - Output / outcome relations
 - Documents of declaration
(subject to technical & legal utilities)
 - Manifesto
(subject to managerial & orientational circumstances)

- Terms & Code-of-conduct

- subject to Interconnected Protocols (ip1)

- | | |
|--------------------|-----------------------------------|
| ▪ Tooling | ▪ Contributory policies |
| ▪ Checklists | ▪ Roadmap |
| ▪ Code-of-conduct | ▪ Mechanisms
(denoted in list) |
| ▪ Docs of releases | |

- subject to Certificates
 - Initial Board Consent
 - Investor termsheets
 - Lean co-op curriculum *-to accelerate the legitimization & utilization*
 - Find market traction
- „Web attention services”
- Channels
 - Appropriate Open Design Platform
 - Circular Production Framework
 - Open Design
 - OVNi
 - Distributed Design & Associated DAOs
- Value Proposition
 - 'web-wide infrastructure' of AM4ideaHu
 - 'Cumulative Process Design Framework'
 - 'web.BLOCK'
 - 'web.PORTAL'
 - 'web.PRECIS'
 - 'netboxLIVE' (clients' portal) –implemented via AM4ideaHu
 - 'M|A|G|A|Z|I|N|E'
 - Operationalizing digital self-determination
 - OS Program Office –OSPO_AM4ideaHu–
 - OS Hardware –OSHW
 - Digital Social Innovation –DSI_AM4ideaHu–
- CC Licensed works
 - 'labour_LEGIT-end' of AM4ideaHu (yA-4.3)
 - 'labour_OPEN-Lab' of AM4ideaHu (yA-4.4)
 - 'labour_WORK-Lab' of AM4ideaHu (yA-4.5)
 - 'Contributors' Data Collection' (CDC) of AM4ideaHu (x15)
 - 'Curated Labour Activities' (CLA) (x14)
 - non-public Directory (x19)
 - Collective Directory (yC-5)
 - Public Directory (yD-4)
 - d'DIR (yB-9)
- CC Licences
 - Create / set up an intranet
 - Manage intellectual property
 - Evolve the self-structured datasets and databases
 - Safely connect the self-made directories to co-workers
 - Integrate interconnected protocols
 - 'Partnership Deed' (implemented via AM4ideaHu)
 - Select appropriate policies and terms

- **Key Resources**

- **Network Resource Planning –NRP**
 - NRP-Contributory Accounting System (CAS)
 - Modular Organizing Recipe (MOR)
 - Collective Media Framework (CMF)
- **OS Appropriate Technology**
 - Collaboration grants
- **Legitimation references**
 - Legal assemblies , firms , associations , organizations
 - Inclusive organizing and organizational development stack

- **Common Good**

- **Definitions**
 - define- DSI by project challenge and ecosystem definition
 - organize- DSI via innovation principles
 - tipify- DSI by open source innovation methods, principles

- **Customer Relationship**

- **Public interests**
 - identify- DSI by network visualisation
 - delegate- DSI by project/releases documentation
 - integrate- DSI by design into the openness

- **Customer Segments**

- **Distributed Cooperative Organisations –DisCoO**
- **OVN**
- **3EO**
- **P2P Foundation**
- **Enso**
- **..et al.**

- **Cost Structure**

- **Accounting**
 - Roles-rules
 - Zones-environments
- **Market-targets**
 - Smart cooperative-targets
 - DisCoO-targets
- **Investor-targets**
 - NOICE-targets
- **OVN-targets**
 - OVNi-targets
- **Permissionless economy-targets**
 - OSInt-targets

- **Revenue Streams**

- **Accounting**
 - Roles-rules
 - Zones-environments

- **Classification for business & market**

- **Open contributory accounting**
- **Accumulated working methods**
- **Outlet for contributors to evaluate**
